## A Note on May's Paid Edition:

Unfortunately it took a large chunk of the month to get the printing down 100% on the Promo Card, which delayed autograph signings etc., etc. That said we'll be listing the May Paid Edition as well as the June Paid Edition on 6/8 so there's still a chance to get that month's promo card autos!

## June Free with Order Promo Card:

Check out our paid Gazette Edition with serial numbered card variations and inversion parallels!

This month's featured xARTIST is… again Garbage Time Heros! The other two artists we have lined up haven't finished their submissions yet so GTH swam in to save the day!

*Inverted Parallel Version*

***Please note that we distribute the Expeditions Gazette freely with any eBay store purchase, and digitally through our social media platforms. We offer a paid version to generate revenue to fund the continued development of our website project and to further expand this periodical.***

This month's xARTIST card is being distributed with the following parallels:

- Free With Purchase Non-Numbered Print
  - Base with Text Version
- May Gazette Autograph Level /95 [$10]
  - Base with Text Autographed Parallel
- May Gazette Inversion Level /47 [$25]
  - Inverted Colors Autographed Parallel
- May Gazette Touch-Up Level /7 [$100]
  - Base with Text Touched Up and Autographed by the Artist Parallel

## *Featured Mini-Article: Collecting the Rainbow*

One of the increasingly more challenging achievements for collectors these days is assembling what is commonly called a "Rainbow". This is when a complete run of all parallels for a specific card are assembled, much like the above run – though there are in fact many more to the set shown than just the four shown here. For each base card in the set shown here, there are a total of 11 parallel versions!

In today's age of seemingly never-ending parallel sets (the 2022 issue of Wild Card Football had a whopping 71[!] parallel sets for a total of 72 versions of each base card), collecting the rainbow can be a daunting task…

What makes it even more of a challenge is the extremely limited print runs of some of the parallels. For example, in the set shown here, 2014 Topps Inception Football, there are a total of 6 one-of-one parallels; 4 printing plates, a blue parallel, and a special order only Topps Vault blank bank. But that doesn't make it less enjoyable trying!

Have you managed to put together a full rainbow? Be sure to swing by our social media accounts and share them with us as we'd love to see them!

## *The Collectosaurus Project News*

We are fully committing to developing our website and printing arm, which is why we have launched our most ambitious sell-off yet – the Total On-Hand Inventory Buy-Out!

Featuring over 150,000 cards across a multitude of sports and non-sports alike, this is your chance to grab a massive collecting foundation or start your own collectibles business. With the starting bid at less than $1 per card, there is a lot of opportunity for those looking to get in on the business. The lot includes all manner of cards including autographs, relics, serial-numbered cards, parallels, rookies, inserts, base, and more! Check our Archive.org account for lot samples and eBay store for the listing.

The proceeds from this sale will be going towards getting the equipment we need to improve our printing ability, get the webspace and time needed to build our website, and to help fund the development of our (the owners of Collectosaurus) son's video game project.
